

10 suggestions to plan sisterhood events.

11 **MEVP Goal:**

12 97% retention of Alpha and Delta Members.

13 **Action:**

14 Work consistently with the executive officer team as well as the TME team to listen and incorporate chapter members and their ideas to better develop chapter programming.

15 **NMC Goal:**

16 To be able to connect all alpha members faces to their names and to have 98% alpha retention this semester.

17 **Action:**

18 Reach out to each new member to try to develop a personal connection. This can be done at our alpha sessions, alpha events, and just regularly communicating with the new members as a group and individually.

19 **Guard Goal:**

20 To have the fastest and smoothest running initiation possible including having girls out by 9 p.m.

21 **Action:**

22 I plan to do this by making a team for initiation where duties will be separated in order to release stress on all parties. I plan on compiling these committees in the first weeks of September so we can begin planning.

23 **ARC Goal:**

24 To have an active calendar made for the December Graduates and to have the 90th anniversary party planned before I leave office.

25 **Action:**

26 Begin communicating with December Graduates to determine what activities they would like to be planned and develop a committee that can begin planning the anniversary party by the end of September.

27 **Leadership Goal:**

28 To have the chapter as a whole more involved with the community in more ways than just donating items.

29 **Action:**

30 To promote more point opportunities that are service or volunteer based and stressing volunteering specifically at RMH more in weekly Facebook posts.
